The diagram illustrates the network layout for Indiana University Chemistry Wireless, specifically for rooms A718, A343, A318, A118, A41, and A423. The legend explains the symbols used:

- **100Mbps UTP**
- **100Mbps Fiber**
- **1Gbps UTP**
- **1Gbps Fiber**
- **T, U, or N** DEFAULT_VLAN Tagging
- **T, U, or N** Additional (ID#) Tagging

Connections with no symbol are Untagged (DEFAULT_VLAN only).

The DNS Prefix is chem, and the Building Code is (071). Updated on 03/17/05 by JSB.
There are two parts to the building:
- The old section -> Normal number (e.g. 456)
- The Addition -> A prefix on room number (e.g. a456)
